

Introducing the Observatory – the key to pharmacy practice –

Attention:

- Pharmacists
- Practitioners
- Researchers
- Students of pharmacy
- Interested in pharmacy practice

Here is a tool to access information about pharmacy practice. We hereby invite you to see for yourself. Click on the Observatory: www.europharm.pbworks.com.

The Observatory contains national and international documents, and also links to documents, with specific relevance to pharmacy practice. A search of the Observatory provides a high-quality, filtered result including national, grey literature.

The Observatory is also a tool for discussion on pharmacy practice with other interested professionals. If there is a topic you want to discuss, you can search for it or introduce the discussion yourself.

The Observatory is accessible to all. Users who wish to contribute to the Observatory by adding their own documents, national or international, are more than welcome to do so and can request a password directly on the Observatory.

For more information, please go directly to the Observatory at www.europharm.pbworks.com or read more on the EuroPharm Forum website at www.europharmforum.org.

For more information, contact:

EuroPharm Forum Professional Secretariat
Ms Kirsten Holme Christensen, MSc (Pharm)
WHO Collaborating Centre, Pharmakon
Milnersvej 42, 3400 Hillerød, Denmark
E-mail: secretariat@europharmforum.org

The EuroPharm Forum is a joint network of professional associations of pharmacists from countries in the WHO European Region. It was founded in January 1992. The Forum seeks to strengthen all aspects of pharmacists' contributions to the health of the European populations, and its programmes are directed primarily towards promoting health and improving the management of illness.
